

CONTRIBUTION AND CHARGES INFORMATION

We believe that the best way to provide a quality education program is through the provision of resources and equipment for our students. These resources and equipment, although supported by our public education system, are also provided through the payment of contributions and charges. We endeavour to keep these costs to a minimum; however, your support in paying those listed here for your child will enable our college to enhance our learning environments. Funds collected within the year are spent on resources in that year. We understand that the payment of contribution and charges can be a financial burden, if you are experiencing difficulties making these payments please contact our finance department on 95233600.

Where do Contribution and Charges money go

Some examples include: art, wood and metal consumables, science consumables, purchase and replacement of curriculum resource books and the replacement and maintenance of Music, Technologies and Sporting equipment, external instructors etc.

Voluntary Contributions Years 7 – 10

Revenue collected helps cover expenses in compulsory learning areas, such as Maths, English, HASS, Science and Physical Education.

Compulsory Charges Years 7 - 10

Extra cost courses (electives) outside the basic education programs incur an additional charge. For example, Technologies, Sports, Arts, VET, WPL, Textiles and Photography attract a compulsory charge for items that students consume over and above what is supplied by the Department of Education. Payment for course electives (charges) is compulsory

Year 11 and 12 Student Charges

All subject costs for year 11 and year 12 are considered to be charges and therefore payment is compulsory. Charges will depend upon the course chosen. Some specific courses will incur higher costs, this is due to items such as text books, subscriptions, materials, consumables, certificate courses and work placement.

Yours sincerely,

Karen Illich
